Why sponsor us?

Getting involved with Leeds Warriors could greatly benefit your business both locally and nationally.

We compete throughout the UK, meaning we can give your logo/brand exposure across a wide region.

With our packages starting from as little as £50 you don't have to break the bank in order to advertise your company through us.

Your investment will help the club remain financially stable and continue to be a place within the local community where anyone wishing to give ice hockey a try can do.

Sponsorship types

Game day sponsorship

Prior to each game we post a preview poster on Facebook.

With your sponsorship, we would ensure your logo was included within the poster and we would name you as the game day sponsor in our comments.

Sponsorship types

Training pucks sponsorship

As there are 3 x training sessions per week, some pucks go missing or get damaged and need replacing.

Should you sponsor our training pucks, we would add a monthly post to our Facebook account, acknowledging your contribution, along with your logo and relevant links.

Sponsorship types

Player of the game / Captain's player of the game photo

At the end of each game, a player from each team is awarded with the **Player of the game** award, along with a case of beer.

We also have a **Captain's player of the game** award, which is awarded in the changing room.

In both cases, a photo is taken and included in the game report which is posted to our website and Facebook.

These photos could include your logo - where we would call out your company as the awards sponsor.

Sponsorship types

Player's shorts

A patch on each of our player's shorts would give the maximum exposure for your company's logo/brand. Patches can be added to each side also.

We have 70 players across 3 teams and regularly post pictures of our games to social media.

Sponsorship types

Player's helmets ←

A sticker of your logo on each side of each of our player's helmets would certainly be noticeable when we post pictures of our games to social media.

Sponsorship types

Combined, the patch and sticker can have a considerable impact and be extremely noticeable.

Both combined in-situ

Sponsorship types

Player's helmets ←

A logo sticker on the front of our player's helmets would be very noticeable when we post pictures of our games to social media.

Sponsorship types

When all 3 are combined, the patch and stickers can have a considerable impact and be extremely noticeable.

All 3 combined in-situ
